

Azure Modernisation Service

What is the Azure Modernisation Service?

Our Azure Modernisation Service pulls together all aspects of support that an organisation will need to succeed in its cloud adoption. A significant element of the services we offer is the funding your customers may be eligible to receive to subsidise the investment of adopting the cloud.

With Infinigate Cloud as your Azure Modernisation partner, you'll be working with one of the most trusted Azure services providers, with decades of Microsoft expertise and proven excellence in delivering cloud transformations.

What are the partner benefits?

Utilise expertise and guidance

Direct access to Azure migration funding for your customers, led by **Infinigate Cloud Azure experts** in adoption, migration, and modernisation.

Open new doors

By accessing our Azure migration funding, you alleviate potential customers concerns around **cost and technical expertise**.

Tap into recurring revenue

Deliver **long-term value** by providing support and continued managed services for your customer's Azure environment after deployment.

Learn new skills

Leverage our **EDGE** program to upskill and bring even more value to your customers.

Who is the Azure Modernisation Service for?

The Azure Modernisation Service is for all customers who are migrating and modernising their infrastructure, particularly those who are looking to:

Move their on-prem SQL/Windows server deployments into the cloud

Deploy an Azure Virtual Desktop environment

Develop a Proof-of-Concept in Azure for a complex deployment

Discover the opportunity with Infinigate Cloud

To simplify the cloud migration and modernisation journey for your customers and unlock all the opportunities that Azure has to offer, contact [Darren Roberts](#) to discuss.
